

Zachary Ma

Detail-oriented QA Engineer with over 4 years of experience in manual and automated testing. Proficient in Javascript, Cypress, Jira, and Agile methodologies. Skilled in identifying and resolving software defects, ensuring seamless quality across web, mobile, and API platforms.

EXPERIENCE

Rhombus Power, Palo Alto – Quality Assurance Engineer

April 2022 - December 2025

- Led QA initiatives for multiple web applications supporting the U.S. Department of Defense (D.O.D.), ensuring reliability, security, and compliance across diverse platforms.
- Developed and maintained manual test suites for UI/UX regression testing, achieving a 40% increase in test coverage and ensuring robust end-to-end validation.
- Created and optimized automated test frameworks using Cypress (JavaScript) and JMeter (Java) for interactive web platforms, boosting regression test coverage by 45% and reducing manual testing time by 20%.
- Collaborated cross-functionally with development teams and project managers to diagnose and resolve issues, leveraging JIRA and Smartsheets to streamline workflows and improve bug ticket resolution rates.

Sandbox VR, San Mateo – Guest Experience Guide

January 2019 - July 2020

- Provided technical troubleshooting and customer support for VR systems.
- Maintained system readiness and store presentation in a fast-paced, customer-facing environment.
- Developed strong communication and problem-solving skills under real-time operational pressure.

EDUCATION

San Francisco State University, San Francisco— Major in Computer Science | Minor in Mathematics

2016 - 2021

Belmont, CA 94002
(650) 769 - 9021
zachary007@gmail.com
